

Experience Sound in a New Dimension

- Studio-Grade Recordings at Home (SCMS technology)
- A Difference You Can Hear
- High Playback Compatibility
- Long Life - 100 Years

→ Superior Sound Quality

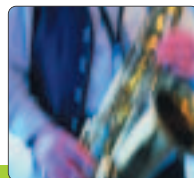

MAM-A Digital Audio CD-R 74 and 80 minute discs are audio-only CD-R discs designed specifically for use in home audio systems with SCMS Technology. MAM-A Digital Audio CD-R Discs for consumers are manufactured with Mitsui's Patented Phthalocyanine Dye, providing the long life you expect from MAM-A, while also delivering a warmth in sound reproduction that is second to none.

→ Create Professional Quality Originals

Consumers can create and archive 74 or 80 minutes of their favorite recordings or professional-quality originals of their own. Once recorded using a consumer CD recorder, MAM-A Digital Audio CD-R discs can be played back on all existing CD audio players.

→ Hear the Difference for Years

Like all MAM-A recordable media, our Digital Audio CD-R discs come with a lifetime warranty and are highly resistant to environmental stress. Simulation tests under conditions of extreme heat, UV exposure and humidity have shown the lifetime of a MAM-A Digital Audio CD-R disc exceeds all conventional audio CDs.

→ MAM-A Digital Audio: 100% MAM-A

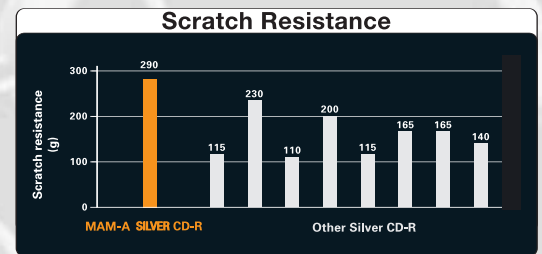

As one of the original manufacturers of CD-Rs, MAM-A has a long history of innovation and excellence in recordable media production. MAM-A, a global leader in the media industry, manufactures discs in Colorado Springs, Colorado. Because MAM-A CD-Rs are made from the company's own raw materials, discs benefit from a consistency and process control which no other manufacturer can equal.
